During a recent volunteer workday, the McLean Trees Foundation (MTF) planted two native Fringetrees and one American Hornbeam tree along Chain Bridge Road in Lewinsville Park in memory of McLean resident Joyce Crandall. Donations from the McLean Citizens Association (MCA) and others funded the purchase and planting of the trees. The trees mark the entrance to Lewinsville Park and enhance the natural gateway to the business and residential community of McLean.

"MTF is honored to share in keeping the memory of Joyce Crandall alive," said Joyce Harris, Chairman of the Board of MTF. "The Fringetree has fragrant, white, fleecy flowers in the spring and the American Hornbeam tree is noted for its strong wood. The trees will improve our environment, bring enjoyment to the entire McLean Community, and serve as living memorials to Mrs. Crandall."

MTF encourages residents to support its tree sponsorship program. Sponsored trees are incorporated into MTF's annual planting program on sites slated to receive MTF trees in the spring and fall. People, pets,
